Biotechnology Resource Centers

Browse the Resource Centers to discover advanced technologies and techniques available from NIBIB funded scientists.

BIOTECHNOLOGY RESOURCE CENTERS

The National Institute of Biomedical Imaging and Bioengineering (NIBIB) supports a large network of Biotechnology Resource (BR) Centers. Scientists at these Centers provide that biomedical investigators who have BR-supported projects may gain access to the newest and most advanced technologies, techniques and methodologies. Individual entries for each center describe the resource goals and provide contact information and Web site addresses.

- [Biotech Resource BR Centers by State](#) - Resource centers listed by state.
- [NIBIB Resource Centers - Additional](#) - Centers that are not listed on this Web site.
